Ho! For Dixieland

The Dixie Irrigation Company has now completed a first class system of irrigation, and has
16,000 ACRES OF THE MOST FERTILE LANDS IN THE PECOS VALLEY UNDER IRRIGATION.

A substantial and permanent dam across the Pecos. This is the dam that stood the test during the high water in 1904, as solid as the rock of Gibraltar.

A Quarter of a Million ROOTED GRAPE VINES, direct from Fresno, California, is now on the ground and being planted. Thousands of ornamental trees have been shipped in from California.

Dixie Land is the most beautiful portion of the Pecos Valley.

Get In While Prices Are Low

Thousands of acres of alfalfa will be planted this year by the company. For sale on reasonable terms.

Don't be misled by the statements of jealous people that everything is wrong with Dixie Land.

All we ask is for investors and home-seekers to come and see for themselves.

An ample water supply, both from the Pecos and a complete chain of reservoirs.

Not a speck of alkali on the plant.

Dixieland, the new town, is in Texas, on the Pecos Valley railroad, 25 miles north of Pecos, 140 miles south of Roswell. It will be made the model town of the Valley.

Go and investigate while the land can be had.

Dixie Irrigation Company,

CLELL Q. THORPE, President.
CHAS. H. THORPE, Secretary and General Manager.
IRA J. BELL, Chief Engineer.
DIXIELAND, Reeves County, Texas.
